EXPERIENCE

AH Datalytics

Remote

Senior Product Manager

May 2025 – Present

- Lead strategy and execution across a portfolio of products serving federal, state, and local governments, owning roadmap, user research, and shipping cycles in collaboration with engineers and external stakeholders.
- Architect and operate internal automated RFP discovery and qualification pipeline, unlocking a new revenue stream and growth model by winning government contracts across criminal justice, education, municipal operations, and more.
- Pioneer AHD's adoption of AI-augmented development, dramatically accelerating delivery cycles and expanding the firm's product capabilities.

Product Manager & Senior Data Analyst

April 2024 – April 2025

- Designed and built all aspects of the [Real-Time Crime Index](#) frontend, the national standard for timely and accessible U.S. crime data, cited or featured in CNN, New York Times, Washington Post, NPR, Marshall Project, Atlantic, and many more.
- Developed philanthropically-funded Data for Community Trust [pilot site](#) to support honest, actionable conversations between communities and the public safety agencies that serve them.

Massachusetts Office of the Attorney General

Remote

Senior Data Analyst & Policy Advisor

April 2023 – Present

- Analyze policing data in discrimination investigation of the Boston Police Department, delivering digestible findings for senior leadership at the Attorney General's Office.
- Recommend policy options to minimize racial inequities while improving operational effectiveness.

Philadelphia District Attorney's Office DATA Lab

Remote

Research Lead

August 2022 – May 2023

- Evaluated taxpayer return on investment in the criminal legal system, synthesizing budgets and outcome data for all criminal legal system agencies, from calls for service through arrests, case adjudication, and incarceration. Presented findings in 70+ page [report](#).

North Carolina Office of the Governor

Raleigh, NC

Michael S. Dukakis Fellow

June 2022 – October 2022

- Drove data analysis, policy memo, and senior leadership briefings across DHHS, DPS, the Task Force on Racial Equity, and the Criminal Justice Analytics Lab supporting the statewide Office of Violence Prevention, signed into law by the Governor on 3/14/23.
- Converted 1200+ PDF jail data forms into analyzable dataset while managing four interns, presenting findings in 20 page memo explaining value and execution of statewide jail data repository and dashboard creation.

Montgomery Office of Violence Prevention

Remote

Consultant

January 2022 – June 2022

- Led team supporting Mayor Reed to define new OVP's scope and success metrics through research, stakeholder engagement, user-centered design with violence-impacted community members, and analyses of crime and budgetary data (80+ page [report](#)).

Teach for America

Nashville, TN

Corps Member, LEAD Academy Teacher

May 2019– May 2021

- 60+ hour/weeks included creating class materials, grading, analyzing academic data to inform planning and redirection; family outreach, socio-emotional support/restorative conversations, four daily 80-minute classes of up to 35 students.
